

AMBLEMEAD'S *Designer Series*

DESIGNED BY US - CUSTOMISED BY YOU

Why Amblemead?

YOUR STORY BEGINS HERE...

What we love about Amblemead, is that it's not about making do with a sloped block, but rather celebrating the features that make your property unique and special. Whether you select a sloping site for views, a narrow block or one that is not perfectly rectangular, trust our team to create a perfect design solution for you.

DESIGNED BY US

Amblemead's Designer Series allows you to choose from a selection of custom homes designed purposely for slopes that perfectly complement the land and views of Mt Barker.

Split-level living is luxurious and unique. It allows for multiple levels and flow throughout the property, enabling family members to retreat to their own space, while still having plenty of room to gather in communal areas. It also minimises the footprint on the site, allowing for extra space outside to entertain friends and family.

CUSTOMISED BY YOU

Building your dream home does not have to be complex. We have partnered with Custom Built New Homes, to create 3 simple steps to designing your dream home.

Amblemead's Designer Series gives you the freedom to choose your dream home on the perfect site. Custom Built New Homes have done all the hard work for you creating beautiful, unique designs for each allotment - optimising slope, frontage, views and sunlight - all you need to do is choose the way you want to live then customize your favourite design to suit your taste and lifestyle.

3 steps to designing your new home

Amblemead's Designer Series process is simple. Choose your favourite home design, select your allotment and customise it to suit your taste and lifestyle.

CHOOSE

Choose the way you live with a wide range of home designs available.

SELECT

Select an allotment that suits your dream design.

CUSTOMISE

Want some changes? The expert Custom Built design team will work with you to customise your design.

In 3 simple steps the hard work is done. Now sit back and watch the Custom Built team construct your dream home and bring your vision to life!
